

Alex Kochumon Koshy

AI Product Management

+91-9746576745 alexkochu2@gmail.com linkedin.com/in/alexkochu github.com/AlexKochu

CORE COMPETENCIES

- Product Skills : Product Strategy, Roadmapping, Requirement Gathering, Agile, Scrum, User-Centric Design
- Analytics : Data Storytelling, Business Research, Product Analytics, Statistical Analysis, KPI Tracking
- Programming : Python, SQL
- BI & Visualization : Power BI, Excel, Zoho CRM, Microsoft 365
- AI/ML/DL : Regression, Classification, Clustering, Neural Networks, CNN,RNN, RAG
- PM Tools : Notion, Figma
- AI Tools : Prompt Engineering, OpenAI, Meta AI, Anthropic, Google DeepMind
- Professional Skills : Stakeholder Management, Cross-functional Collaboration, Problem Solving, Communication

INTERNSHIP

Data Science Trainee - Amdox Technologies | [link](#) Dec 2025 – Mar 2026

- Engineered end-to-end data pipelines for large-scale cleansing, preprocessing, and EDA, improving reporting accuracy and enabling faster decision-making for internal stakeholders
- Synthesized raw analytical outputs into structured business insights, bridging the gap between technical model results and actionable recommendations for cross-functional teams
- Developed ML and visualization dashboards using clustering and predictive analytics to support executive performance reviews and operational planning initiatives

Tech: Power BI, Excel, Scikit-Learn, Machine Learning, Predictive Analytics, EDA, Data Visualization, ETL Processing

PROJECT

CARYNTH - Personalized Career Intelligence & Recommendation Platform | [link](#) Apr 2026 - May 2026

- Recognized a gap in personalized career guidance and led end-to-end development of an AI-powered recommendation platform, helping users discover suitable tech career paths based on skills and academic profile
- Architected the core recommendation workflow using Random Forest (94% accuracy) and K-Means clustering, prioritizing explainability and actionable output - built an NLP pipeline to normalize 50+ skill variations and improve recommendation consistency
- Directed a Career Readiness Index to surface skill gaps and generate personalized upskilling roadmaps, directly addressing the point where most career tools lose user engagement.

Tech: Python, Pandas, NumPy, Strategic Analytics Visualization, Generative AI Systems, Flask,NLP

Duolingo - Progressive Trust Verification (Independent Product Case Study, 2026) | [link](#) Mar 2026 – Apr 2026

- Designed a contextual, trigger-based parental consent flow for under-18 Duolingo users to align with India's DPDP Act, replacing a high-friction signup wall with consent requested only when sensitive data access is required.
- Defined product success metrics and a consent analytics dashboard, targeting 90%+ verified consent within 7 days, <3% consent revocation, and zero unverified data events.
- Validated the solution through a fully clickable two-device prototype and a 10-slide product strategy deck covering trade-off analysis, rollout planning, and risk mitigation.

Tech: Antigravity, Google Slides, Vercel, MoSCoW Prioritization
